

Mock-up

5/2020

Mock-up in SE

- to create user interfaces that show the end user what the software will look like
 - without having to build the software or the underlying functionality.

Wireframe Mockup Prototype

Wireframes are the skeleton.

Simple interfaces: structure + function + content of page/screens.
How the screens/pages connect.

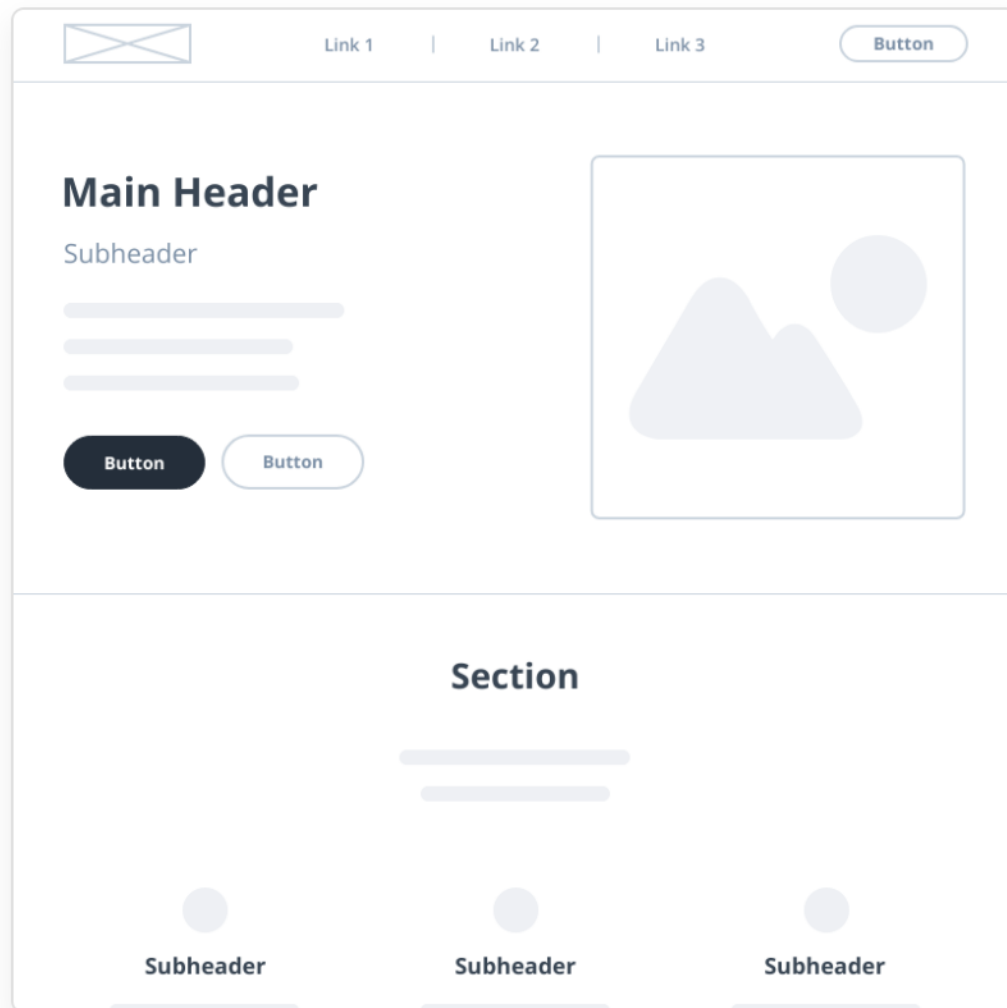

Mockups are the skin.

Right content + more color + font + style,
image, logo,....

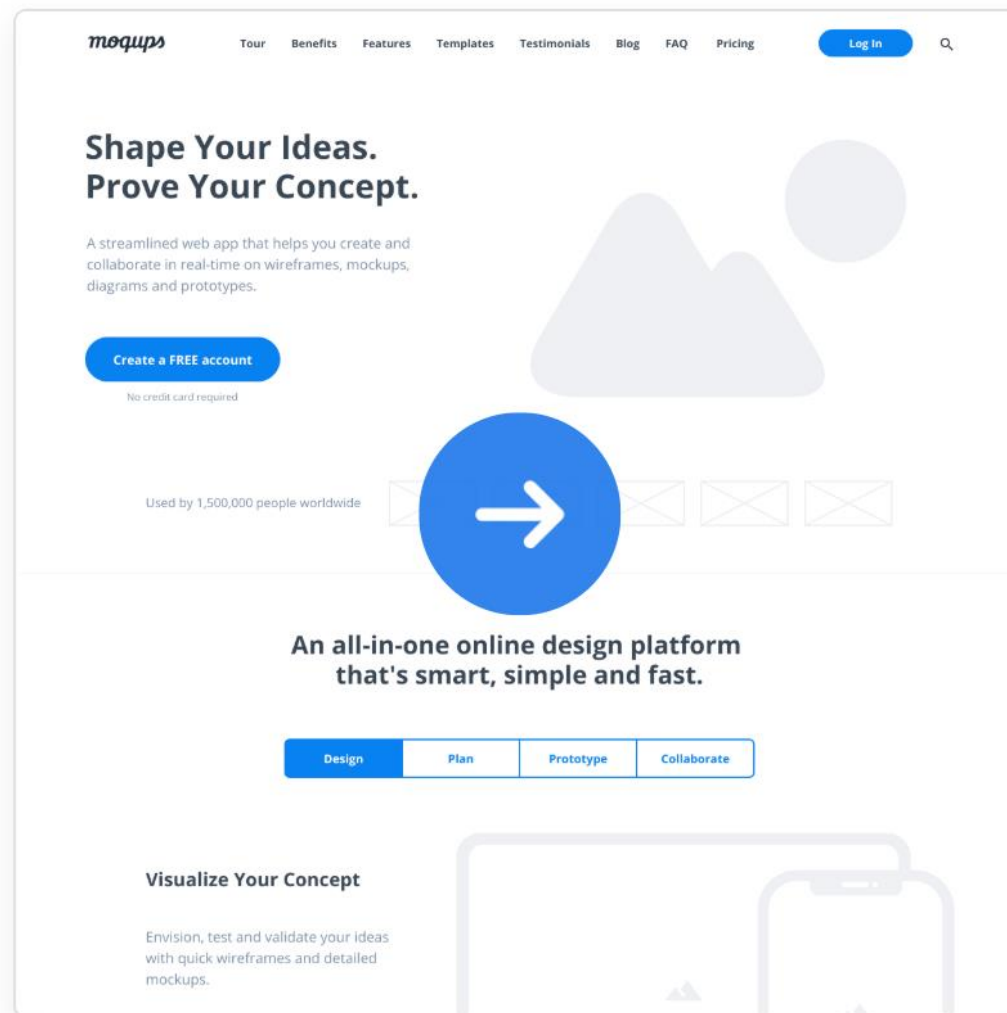

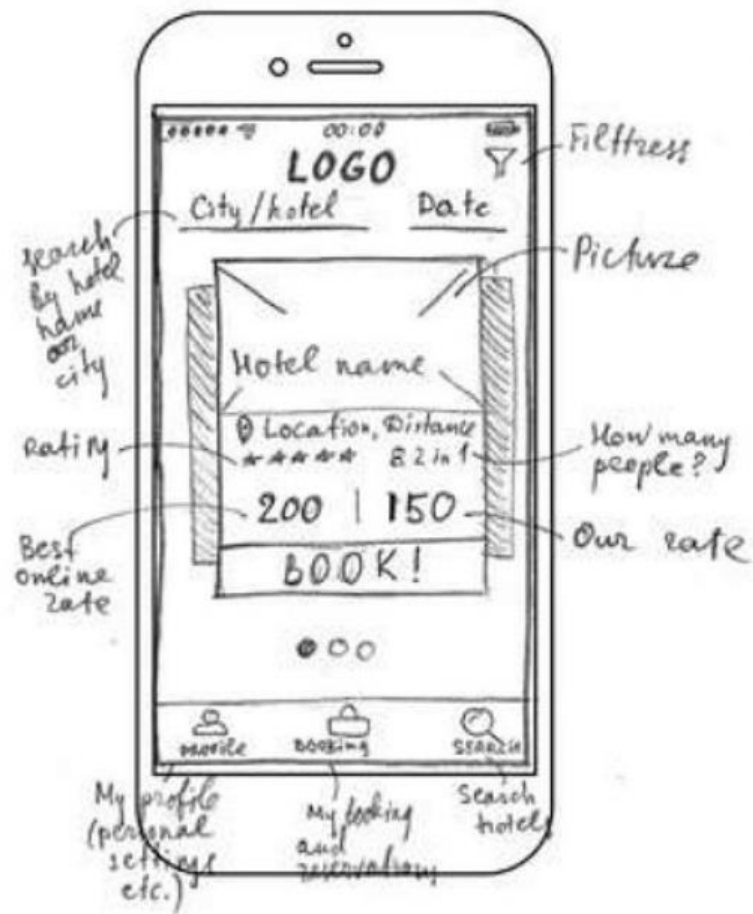

Prototypes demonstrate the behavior.

Low Fidelity Wireframe

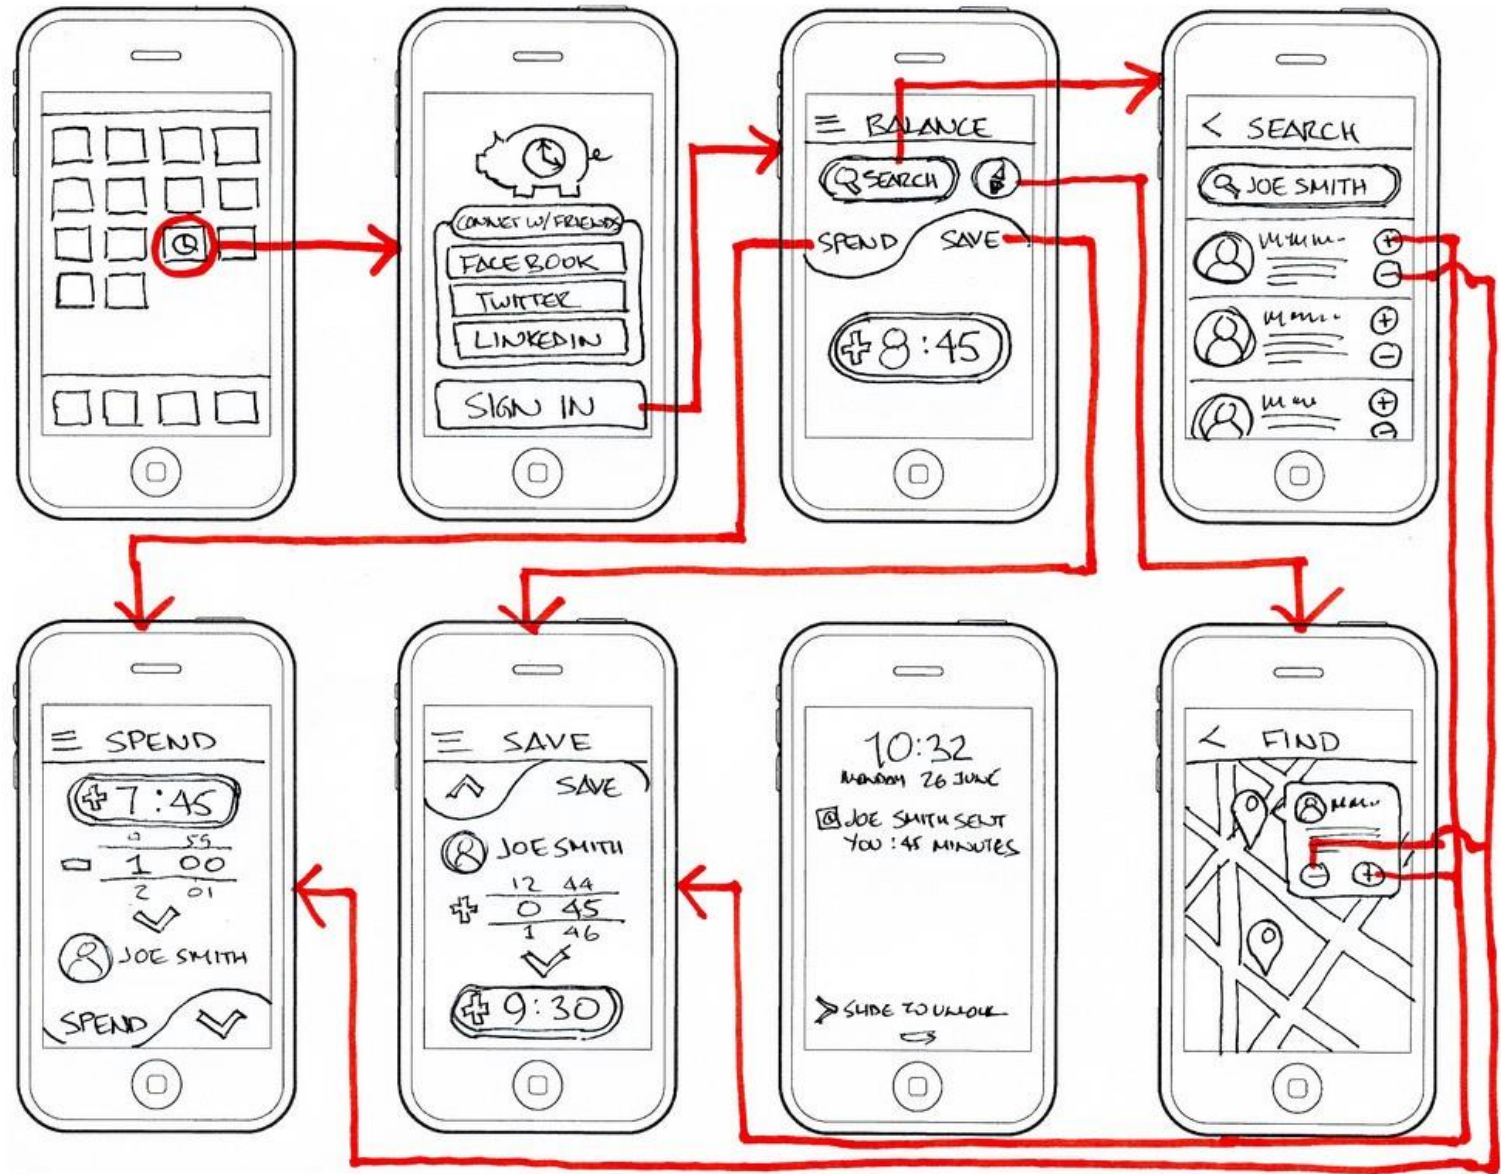

High Fidelity Wireframe

Wireframe

- The different of screen on web, on mobile, on ipad/tablet, ...
